

## EXCITING RETAIL, FOOD AND BEVERAGE CHANGES NOW UNDERWAY AT YQR

In an effort to continue to increase our customer satisfaction YQR is improving our retail, food and beverage services. From April 1 until October 1, 2015 we are working on additional and expanded food service options both pre- and post-security, expanded post-security retail services and improved lay-out in the main restaurant to improve efficiencies in service.

New additions to our airport family will be Brioche Dorée, Skyway Café and full service Tim Hortons, Skyway Lounge and a Subway. Subway is the first of the new arrivals to open its doors for business and is now providing 24 hour service 7 days a week. Additional enhancements include the offering of a full service menu at Tim Hortons on the second level pre-security, Relay will offer an expanded selection post-security and an airport favorite, Rumour Handcraft will be relocated to the Arrivals Area along with a new coffee and convenience store.

With changes that will occur to our Retail, Food and Beverage Services there will also be adjustments to our Security and Customer Service Desk and Ground Transportation Area in the Arrivals Hall. From April 1, until completion on October 1, 2015, to ensure our staff, passengers and guests are aware of the renovations and services that may not be available at certain times during this process YQR will provide an up-to-date summary report on our progress. This progress report will be located on the front page of our website at [yqr.ca](http://yqr.ca).

“With a tenth year of record breaking passenger growth in 2014, over 1.26 million, the renovations to food, beverage and retail concessions underway in the Air Terminal Building are timely and well planned,” said Richmond Graham, President and CEO, Regina Airport Authority. “Our motivation behind these changes is to ensure our guests will start and finish their travels with a smile on their face.”

Further details on these exciting changes are attached and available online at [yqr.ca](http://yqr.ca).
