

Improvements to Roadway at YQR

Regina International Airport (YQR) wants to ensure our passengers and guests are aware of roadway construction being completed by the City of Regina that will affect airport recently learned of roadway construction that will affect airport access for the next few weeks.

YQR was recently notified of the work by the City of Regina and is working with the City to mitigate the effects of said construction by maintaining existing access – albeit at reduced capacities. This accommodation will be up for about 10-12 days weather permitting before moving to the centre medians along Lewvan Drive & Regina Avenue.

YQR recommends the following when heading out to the airport:

- Watch construction signage and advisories and be sure to use caution
- Leave for the airport earlier to ensure you don't miss your flight

For more information on the construction taking place visit the City of Regina's website at www.regina.ca and for more information on Regina International Airport visit yqr.ca.
